

# Health socks

*Therapeutical comfort  
for sensitive feet*

*Foot care  
while you go!*

# MED Multi

*Pressure relieving, extremely flexible  
multifunctional sock*

Due to the extreme elasticity MED MULTI is particularly comfortable and also applicable if large foot and shaft widths are necessary – e.g. wearer of bandages, braces and orthosis, likewise with broad feet, high instep, foot or deformations of the extremities as well as swellings. The **air-comfort sole** and the padding protect sensitive foot parts against pressure marks, chafing and blistering.

**Ideal during extreme exertion or for particularly sensitive feet. Suitable for diabetics and rheumatics. Friendly to the veins.**

We recommend wearing inside out.  
Absolutely not bulky on the inside  
without any pinching seam.

# MED Thermo

*Pressure relieving, strongly warming and padded special sock.*

Warming sock in comfortable width. Activating and odour reducing effect, by means of conductive climate regulating silver fibres and Coolmax at the foot sole. Protection against coldness by merino wool. Due to the high elasticity applicable, where large foot and shaft widths are necessary. The special construction of the sole and the **air-comfort padding** offers optimum protection for sensitive foot parts, against pressure marks, chafing and blistering.

**Optimal for sensitive to cold feet, adverse climatic conditions. Ideal in winter shoes. Suitable for diabetics and rheumatics. Friendly to the veins.**

We recommend wearing inside out. Absolutely not bulky on the inside without any pinching seam.

# MED Soft Cotton

*Lightweight, soft and smooth special sock of skin-friendly, elastic cotton mix*

Extremely flexible shaft and non-constricting cuff

Flexible foot part for foot extents

Skin-friendly cotton

*price advantage*  
**double pack**  
*2 pairs*

Hand-linked toe

Perfect, creasing free fit up to the toes

A noticeably easier and gentler wearing comfort is accomplished by means of cotton-core-yarn. The natural, soft extensibility of the material provides a soft and smooth fit free from creases.

MED Soft is seamless at the toe, non-constricting at the cuff and without pressure.

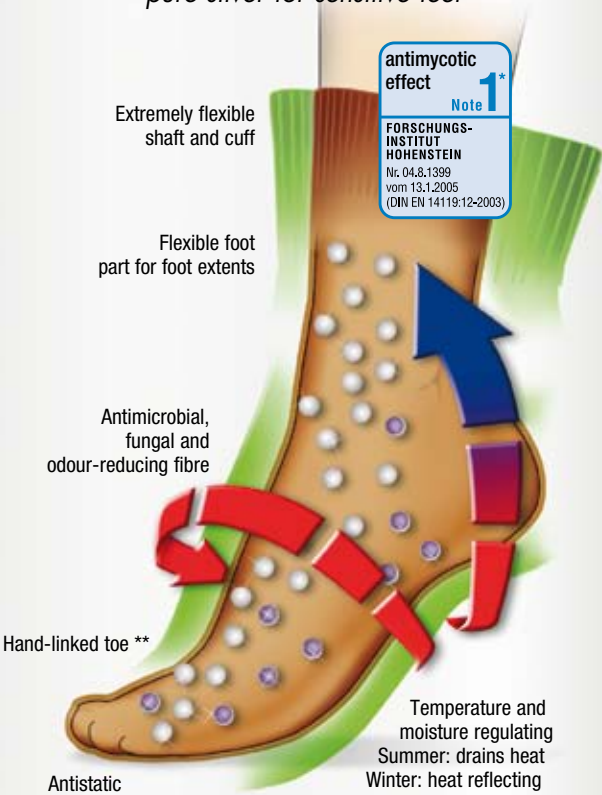

**Suitable for diabetics and rheumatics and for everybody, who desires a soft and smooth wearing comfort. Friendly to the veins.**

# MED X-Static

*Fine special sock with pure silver for sensitive feet*

antimycotic effect  
Note 1\*  
FORSCHUNGS-INSTITUT HOHENSTEIN  
Nr. 04.8.1399  
vom 13.1.2005  
(DIN EN 14119:12-2003)

Extremely flexible shaft and cuff

Flexible foot part for foot extents

Antimicrobial, fungal and odour-reducing fibre

Hand-linked toe \*\*

Antistatic

Temperature and moisture regulating  
Summer: drains heat  
Winter: heat reflecting

Fine special sock with silver fibres. Temperature regulating, anti-static, vein-friendly and reduces the growth of fungal and bacteria in the laboratory test. With its flexible foot part, shaft and its non-constricting cuff MED X-Static is suitable for pressure-sensitive feet and various foot widths.

**Suitable for diabetics, allergy sufferers, swellings, foot odour, foot perspiration, sore and temperature-sensitive feet. Ideal for sensitive skin.**

\* grade 0-5. Grade 0: no bacterial growth, grade 1: growth only visible with the microscope. For comparison untreated cotton: grade 5: massive growth, which covers the complete surface  
\*\* We recommend wearing inside out for maximum effect and highest wearing comfort. Thereby 100% of the super-soft X-Static silver fibres operate directly on the skin and the seam of the hand linked toe lies on the outside.  
If best look has priority, the socks can be worn turned outward without any problems.

## GoWell - Sizes and Colours

### Colours

<b>MED Multi</b>	greying, darkblue, black
<b>MED Thermo</b>	anthracite, nature, nature mottled
<b>MED Soft cotton</b>	black, darkblue, white*, nature*

<b>Reflex-zone-socks</b>	78% Cotton, 19% Polyamide, 3% Elastane

Shoe sizes 35/36 – 46/48

# Reflex-zone socks

*WELLNESS-SET energy for body and soul  
by relaxing and soothing foot massage*

Reflex zone massage can activate the entire organism. Certain zones of the foot correspond to the organs of our body. The mental and physical well-being can be positively affected by their specific massage. On the sole of the reflex zone socks the organs are illustrated and permit thus a purposeful massage of certain zones. The particularly fine cotton Lycra quality lets you feel the relaxing massage intensively.

**Reflex-zone-socks serve for a relaxing massage. They are recommended for all, who would like to unwind, relax and to get spoiled.**

# Below-knee stockings

*With warming, temperature and moisture regulating wool*

Extremely flexible shaft and cuff, without elastic yarn

Skin-friendly natural fibres

Flexible foot part for foot expanses

Linked toe

Perfect crease-free fitting up to the toes

Reinforced heel and toe

GoWell below-knee stockings fulfil highest wearing and quality requirements. Due to the slub-free linked toe, the cuff without elastic yarn and vast foot and shaft diameter they offer a pleasant loose-fitting without slipping down.

**Suitable for diabetics and rheumatics. Vein friendly.**

## Soft Wool

Soft and non-itchy merino-wool-mixture with climatic- and moisture regulating features for warm and dry feet and legs.

## Short-shaft socks (Sneaker)

<b>Inshoe-socks</b>	Shoe-size
<b>with Wool</b>	35-38

- Airy, not bulky
- Creates a healthy and pleasant climate in the shoe

*Foot care  
while you go!*

### *Healthy feet love GoWell!*

Feet and legs have to endure a lot. No surprise, that a lot of feet get problems. The complex workmanship and the combination of high-tech fibres (X-Static, Coolmax) with the advantages of the natural fibres (Cotton/Wool) or Polycolon offers your feet soothing comfort and drains moisture away from the skin.

### *GoWell for all purposes!*

In the GoWell range you will find socks and stockings for different problems and preferences.

GoWell protects actively against heat or coldness, moisture, foot transpiration and foot odour. GoWell is ideal for pressure-sensitive legs (e.g. rheumatics and diabetics), adhesions and injuries of the foot. GoWell simply supports your well being e.g. by the instruction for a relaxing foot massage or by a non-constricting pleasant wearing comfort.
